

Did you know you have control over which YMCA locations you receive YMCA App notifications from?

Follow these quick and easy steps to ensure you are only getting the notifications you want.

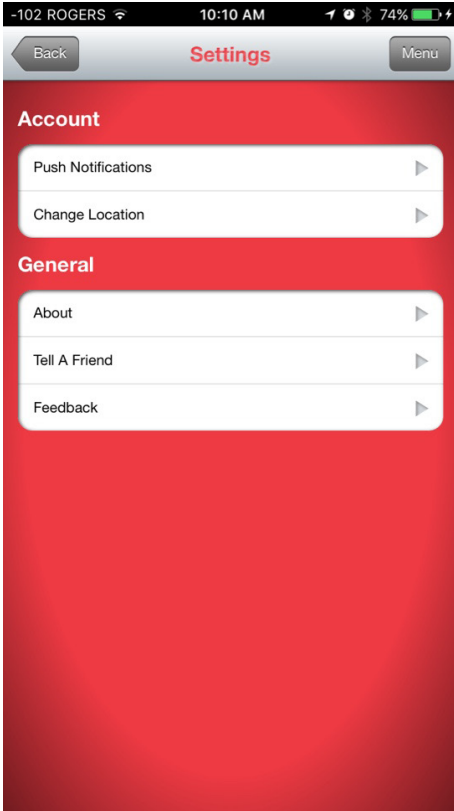

1

Open the YMCA Calgary app and locate the settings button. It may be on the second page. Swipe left or right to navigate between pages.

2

From the settings menu, press the Push Notifications option.

3

Press the on/off button beside the location name or notification type to turn on or turn off notifications for that location. Press the back button to return to the main menu.
