Brookfield Residential YMCA at Seton Special Update

November 23, 2018

Construction delay will affect Brookfield Residential YMCA pool opening, winter aquatic programs and rentals

Brookfield Residential YMCA at Seton, nearing completion in southeast Calgary, is funded and built by the City of Calgary and will be operated by YMCA Calgary.

City officials have informed us that, although substantial portions of the building will be complete by the estimated opening date, Jan 14, 2019, **construction delays mean the pool areas will not be available at that time.** The City has informed us the competition and recreational pool areas require additional work to ensure operational efficiency and safety for Calgarians.

Therefore, YMCA Calgary will not be opening up aquatics programming registration for Brookfield Residential YMCA on Nov 27, 2018 for members and Dec 11, 2018 for other participants as anticipated.

This means there will unfortunately be no swimming lessons, group rentals or any other registered or drop-in aquatics activities at Brookfield Residential YMCA in the Winter Session, ending March 24th, 2019.

Other YMCAs in the southeast, including Remington YMCA in Quarry Park and Shawnessy YMCA will be available for aquatics registration beginning on November 27 for members and Dec 11 for other participants as scheduled. **For program registration details visit ymcacalgary.org/programs.**

Please note: Other Brookfield Residential YMCA programming is not affected by construction delays at this time, but that remains subject to change as City of Calgary construction updates become available.

We sincerely apologize for any inconvenience this may cause.

Please watch for the latest YMCA programming updates at ymcacalgary.org/brookfieldresidential

For updates on construction timelines, please visit the City of Calgary website at calgary.ca
